DEPATES.
On the report of the Committee on Sewers.
DEPATES.
On the report of the Committee on Piers and Wharves, recommending the purchase by the City of the sold lots.
Mr. Kennedy said—The purpose of the resolution is to repossess the City of a valuable property at a cheap rate. It has been found that outside interference has caused the demand to be made in the form it now assumes. Mr. Barnum sent in a communication offering an agreement, in the meantime, and the whole property was fixed at \$360,000. This price is low, as is seen by a comparison of the value of property in the neighborhood. Small lots there are new worth fifteen hundred to three theusand dollars. Had this property been retained to the City, taxation could probably be new altogether avoided; but nearly all has been parted with. I especially feel hostility to the selling of the water-side property. The original grant was certainly made by the British Government to the Corporation of New-York, in order that they should retain it forever; of the water-side property. The original grant was certainly made by the British Government to the Corporation of New-York, in order that they should retain it forever; but they began to sell 100 years ago, and I wonder there is any left. The Committee have taken legal advice, and, except the Controller, all have recommended a settlement by purchase. The Controller could not say whether ten or twenty years would see such litigation at an end, during which time the expense would be great and the use of the ground lost. The legal opinion is that the title in Mr. Barnum is good. These considerations have induced the Committee to make the present recommendation.

Mr. COOPER spoke to the same effect.

On the report asking an appropriation for the late reception of Ex-President Fillmore, Mr. Kenneny said he might shortly ask another for a real Ex President, who would shortly return to the country. [Laughter.] Being asked, he said he meant Mr. Van Buren. [Loud laughter.]

Mr. COOPER said, although of the same political profession with Franklin Pierce, he would much rather see Mr. Fillmore in the Presidential Chair. [Applause and hisses.]

On the petition asking aid to purchase D. Abbott's col-

On the petition asking and to purchase D. Abbout s collection of antiquities, Mr. CLANCY moved as an amondment that the Anatomical Museum should be purchased. Another member moved the purchase of the Crystal Palace. Mr. CONOVER supposed that the dissontient gentlemen would not dissent if the proposal were to purchase the whole Sixth Ward and inclose it as a relic of antiquity.

[Laughter.]
Mr. KENNEDY greatly admired the collection, but as to
to the Common Council, he thought it "is not in our way."
The Board then adjourned to Monday afternoon at 6

ANOTHER VESSEL BURST.

We regret to learn that the bark Vernon, Capt. Thayer, was totally destroyed by fire vesterday morning, in the lower Bay. She had on board 1,276 bales of cotton, and cleared on Friday for Trieste, most of which is likewise destroyed. Capt. Heirn of the steamer Oregon, saw the fire break out while in Grant's Pass, at 2½ o'clock in the morning. On coming up to the vessel he found her in a mass of flame from stem to stern, the deck being completely burnt and the mainmast falling at the moment. The boats of the bark Linden were lying near by, but unable to render any assistance whatever. The consignees, we understand, sent down a couple of steamers yesterday to save, if possible, a portion of the property.

Edward Harrison, second mate of the ship William B. Traviz, lying outside the Bar, is believed to have been drowned has Saurday. He took a boat alone to recover an article which had fallen overboard, and was carried by the wind and current into the North Breakers, where he was doubtless drowned. Another boat was sent to his assistance, but was composited to return to the ship without being able to rescue him. The weather was quite rough at the time.

THE BALLOON ASCENSION.

There was a great gathering yesterday afternoon at the Crystal Palace to see the grand balloon secension of Mr. Wise, the veteran American Æronaut. The inflation of the balloon took place in the Palace enclosure, outside the edifice, and was watched with much interest by the multitude. Punctually, at the hour-Barnum is invariably punctual-the ropes were loosed and Mr. Wise source away toward the place of clouds. A brisk western breeze was blowing, and he was borne rapidly toward the East. The remainder of his adventures are given in his own words. It will be seen that he had a narrow escape; but

words. It will be seen that he had a narrow escape; but he is accustomed to such perils:

To the Editor of The N. Y. Tribuse.

CRYSTAL PALACE, NEW-YORK, June 9, 1854.

Sir: I made my one hundred and sixty-third ascension yesterday, from the court yard of the Crystal Palace, at 31 o clock. The day was squally, and it was necessary to start with a strong ascending force so as to overcome the obstacles surrounding me. This created a sensation when I gave the word "let her go," as though I had been projected by the force of gunpowder. In a few minutes I enterered the clouds. The balloon was still swaying to and fro like a forious elephant. All around me there appeared nothing but a deep twilight, of an ashy bue. In another moment the sun faintly showed its disc through the milky vapor. Reflecting that as I entered the clouds the occun was lashing the long-bound shore with its angry billows. I was not content to stay in the cloud country long. All this time I had the valve open, but not wntil I had emerged out of the clouds above did I restrain the apward bounds of the wild aerial ship. Above I saw over a patch of clouds the surf of the occan daming its spray into the clouds as it were. At last the ascending power was overeme, and the bills that I was throwing overboard kept my company in the descent. When I got below the clouds again I saw Flushing a little assiward. The descent now become rapid, and the strong wind below admonished me of a rough landing. In another moment my grappio 100% effect. The lar broke some of the rigging, the grappie ripped up the sod, and the balloon bounded several hundred yards. Next the car was dashed forcibly into a ravine, and botted me out. I held on to the onisite. The ballost being also thrown out, gave the balloon mercased power. She rose the length of the rope, while I was hanging fest to the car. In a moment the grapple again ripped up the sod, and, seeing my predicament, that of being handed up, with a moral certainty that I could not seene myself to the car long, I made the f

Yours, truly, JOHN WISE.

Mr. Wice, it will be seen, returned to the Palace in date season. The last that we have heard from the balloon was by way of telegraph saying that it was seen at 41 P. M., off Bridgeport, scudding rapidly eastward. Of course all who saw it believed Mr. Wise to be in it, and fears were expressed that he would be lost in the Sound or carried out

GARET HIS WIFE, FOR THE MURDER OF JOAN-NAH DARBY BY POISON.
These prisoners were placed on trial yesterday. They

stand indicted on the charge of killing Joannah Darby, an old woman about sixty years of age, by poison. They resided on the corner of State and Boerum-sts., and the de-ceased lived with them. The murder, as alleged, was committed on the 28th of January last.

Richard C. Underhül, Esq., District-Attorney, conduct-

ed the case for the prosecution, and Col. C. J. Jack and Sylvanus D. Lewis, Esq., appeared for the defendants. The foll wing jury was impanneled after several chal-

The District-Attorney in his remarks to the Jury stated that the prisoner at the bar was indicted for the crime of murder, charged to have been committed on the 28th day of January last past. The defendant Farley is indicted for the murder, and his wife Margaret, as accessory before the fact. The name of deceased is Joannah Darby, who had two husbands. The name of the first was Cooper and the second was named Darby. She was known by both names. At the time of her decease she was an inmate of the house or shanty of the prisoners, on the corner of State and Bocrum-sta, where they sold liquor. She had been acquainted with them for some time. Her husband and sequainted with them for some time. Her husband and herself it appears did not agree very well, and separated on the principle of French law, each taking a share of their property. She was not a very hearty woman, and it is probable was predisposed to consumption, and previous to her decease had been confined to her bed. At the time of her death Mrs. Farley was absent from home. Mrs. Darby had money, nearly all specie, of which a considerable portion was gold, of which the prisoners had intimation. I understand the possession of that to be the motive in this case. This simple motive of pecuniary gain has become so common that it is not unusual to find parties who have no more scruple in taking life than in stealing property. Johnah Darby was ill and in bed on the day of her death and was supplied with arrow-roet in a bowl, which was prepared for her by Farley. She partook of it, and also of some beer. Almost immediately afterward she was seized with a burning sensation in the stomach, which was all inflamed, as the described it, and shortly after died. The physician cane during these symptoms, and recommendwith a burning sensation in the stomach, which was all inflamed, as she described it, and shortly after died. The physician came during these symptoms, and recommending some slight applications left her. These circumstances being knewn, an inquest was held by the Coroner, and on the examination it was ascertained that the death was caused by peason. The arsenic was found it her stomach, and this was the cause of her death. There were no other parties present when she was supplied with the preparation. We shall show that the arsenic caused her death; that the man peasessed pills containing arsenic; that it was not contained in the arrow-root, and by conversations shall show that this woman said that Mrs. Darby hal made a will devising all her property to her, went off to Westchester County on the morning of her decease, and showed the will to a female acquaintance. Her conduct then was considered extraordinary, and, I think, we shall be able to show these facts and a good deal more during the investigation, and if we succeed we shall ask for their conviction. I am satisfied that these parties are guilty of the murder, although, I must confess, they do not look like murderers; still, the circumstances are so strong against them as hardly to admit of a doubt.

The following witnesses were then called:

Betsey Hanover sworn: I live in Boerum-st., near Atlantic; bow the prisoners as neighbon; they lived three or four decreaform

The United States Mail steamship Black Warrior sailed from the foot of Harrison-st. at 12 o'clock yesterday, for Mbile via Havana, with twenty-five passengers. She also carried out a full freight and \$14,000 in specie.

CITY ITEMS. METEOROLOGICAL REGISTER. From Observations by Standard Thermometers at No. 1 Coambers at No

The weather yesterday was fair and cool, so that going abroad was a desirable pastime—with only the annoyance of dust from the streets and worms in millions swinging

The Board of Aldermen had a brief meeting last even ing, and dispatched most of the business on the table. A great effort was made, by Alderman Herrick and others to get the large appropriation of \$6,000 voted for by the Board of Councilmen, for the Fourth-of-July Celebration. confirmed by this body: but they failed in their attempt Alderman Voothis said he was willing to appropriate \$3,000 or \$3,500 for the Fourth of July, and should the Councilmen not be satisfied with such a sum, there would not be any colebration at the public expense. Alderman Mott spoke against a larger appropriation than \$3,000, and said he felt confident that even that sum would not be properly spent. On Washington's Birthday the Veteran Corps was entertained, Alderman Mott says, with a few sandwiches and some cold water; but after they left the sandwiches and some cold water; but after they left the hall for upward of three weeks the champagne intended for that day was undergoing demolition. In his opinion suck would be the fate of a heavy appropriation for the Fourth. After much discussion, en motion of Alderman Brown, the sum was made \$3,800 by a vote of 13 to 4—Aldermen Blunt, Christy, C. H. Tucker, and Mott in the Aldermen Blunt, Christy, C. H. Tucker, and John menegative. The President appointed the following members of the Board as the Fourth-of-July Committee: Second, Third, Sixth, Seventh, Eighth, Ninth, Eleventh, Fourteenth, Twentieth, and Twenty-second.

DEATH OF MR. CHARLES C. WRIGHT .- On Wedn the 7th inst., Mr. Charles C. Wright died at his residence in this City. He is said to have been the first person who introduced the xylographic mode of printing in New-York, and also to have been the introducer of the first machinery for manufacturing steel pens in the United States. But he was chiefly distinguished for his skill in preparing dies for medals. By order of the Government he prepared various medals to commemorate the victories of our army in Mexico, the medal awarded by the State of Virginia to Gen. Scott, those of the State of New-York to Gen. Worth and others, and the medal in honor of Henry Clay. Mr. Wright was a native of the State of Maine, and was a wright was a soldier of the war of 1812,

A painful accident occurred at Sing Sing, on Thursday last. The wife, son and daughter of Dr. Bacon, who re-sides near that village, was thrown out of a carriage. Mrs. Bacon was shockingly bruised-so seriously, indeed, that there is little hope of her recovery. The others were less severely hurt. Dr. Bacon is a brother of Dr. Leonard Bacon of New-Haven.

Serious Aferay on Shippoard, On Thursday night a difficulty occurred between two sailors named John Gra-ham and Chas. Wilson, while on board a ship lying in the North River. They soon came to blows, when Graham stabled his adversary in several places, inflicting dangerous wounds. He was arrested soon afterward and com mitted to prison by Justice Bogart. The injured man was conveyed to the N. Y. Hospital. Suicibe of a Dwarr-An Affair of the Heart.

Coroner Hilton yesterday received from the office of the City Inspector the following certificate of death of a man who was found drowned on the Jersey shore, and after interment, exhumed, recognized by his friends, and brought to this City for burial:

"This is to certify that I, Abraham Spear, one of the Justices of the Peace of the State of New-Jersey, County of Hudsen, did, on the 7th inst., hold an inquest on the body of Edward Dunyor, late of the City of New-York.

"June 8 1854"

"June 8, 1854."
Mr. Downing, the City Inspector, refused to accept this imperfect specimen of a certificate, and therefore it be-eame necessary that one of the Coroners of this City should hold an inquest upon it. Accordingly, Coroner Hitten proceeded to do so, and learned that the name of short proportions, but of very large head, who resided a No. 70 Pitt-st. It also appeared that he had for the past three years worked for Mr. Marsh, at No. 2 Maidenlane, where a young woman named Amanda French.had also been employed. He became deeply enamored of this girl, but she declined his attentions, and about six weeks since left the employ of Mr. Marsh, and went to reside in Houston, near Columbia-et. On the evening of the 31st ult., Dwyer called to see her, and gave her a ring which she had formerly presented to him and another of his own, saying at the time: "Take them and keep them, for I shall "never see you again." He then proceeded to the ferry-boat City of Williamsburgh, and soon after the boat left the dock, jumped into the river and was drowned. A few days before this occurrence he told a female acquaintance that he wished himself dead, because he was Irish and deformed. The Coroner's Jury, after fully investigating the case, rendered a verdict of "Suicide by drowning, during a temporary fit of insanity." Deceased was 20 years of

THE BOSES.—Messrs. Editors: The question. How came the hours there?" in the item of yesterday, is not as difficult to suswer, by a descradant of an old inhabitant as it would be by a disciple of Young America who had grown so very fast that he had for active he ever had a father. The ground north of the old inli in the Park, and extending a little beyond Duane-st., was used as a Potters' Field, and many bodies were there interred. While excavating for the extension of the above mentioned store, six years since, one or two skeletons were found; and it is natural to suppose there may be many under the neighboring buildings. Duane-st, has been raised 14 or sixteen feet since the ground was used for the purpose stared.

Respectfully yours,

ARREST OF A BURGLAR.—A man named John Wiley was underday detected in the act of carrying off a pistol and \$100 worth of clothing from the house of Mr. Stuyvesant, No. 159 East Flittenthet. He effected an entrance through the scientile on the roof, which he gained by passing through an unoccupied building adjoining, and was about leaving in the same way with his plunder when he was seen by the gardeer of Stuyvesant square, and arrested. Justice Wood locked him up for trial.

ARREST OF A DOCK THIEF.—A black fellow was yesterday arrested in a small bost, in which he had concealed some pig iron. He belongs to a gang of dock thieves who so from dock to dock in row-boats and steal all they can lay their hands on. It is said that many of the junk-shop men keep small boats ostensibly for the purpose of carrying their wares to a whelesale market, but really to lost to thieves to bring junk to them. These junk-shops are scarcely less than nurseries for thieves. The prisoner was locked up by Justice Osborne for examination.
